NIGHT COUGAR

- Rugged fiberglass reinforced plastic construction.
- All glass multi-coated lenses for superb clarity and brightness.
- Revolutionary F1.4 lens with amazing light transmission.
- Manual focus.
- Adjustable eyepiece.
- The Night Cougar infra-red illuminator was designed to let you see even in total darkness.
- Light weight and comfortable.
- Weather Resistant.
- Two year warranty (optional extended warranty).

The night cougars are a light weight dual eye/tube goggle system that are comfortable to wear and easy to use. Powered by two high quality 1st. gen+ light intensifier tubes and using fast precision optics the Night Cougar has one of the clearest and brightest images available in a 1st gen goggle.

Combine all of the above with a built in infrared illuminator that lets you see in total darkness and you will be on your way to exploring even the darkest of places.
