

AMERICAN TECHNOLOGIES NETWORK, CORP.

ARIES MK-258

- Digital "Smart" technology
- Total darkness technology
- Automatic brightness control
- Built in 100m IR illuminator
- Internally adjustable lit reticle for windage and elevation
- Mounts to standard U. S. weaver
- Recoil & flash resistant intensifier tube
- Auto "Sleep" mode
- Video/35mm camera adaptable
- Superb multi-coated 6 element lens system
- Manufactured exclusively by ATN
- Two year warranty

The Aries MK.258 is our 1st generation night vision "Smart Scope". It is affordable and compact while still having all of the standard "smart" features. Its cousin the Aries MK.238 has been sold in the tens of thousands over past several years and has performed tremendously for all of our customers since its introduction. Besides the obvious technological advancements of the " Smart Series", the Aries MK.258 features several more improvements over the MK.238. A higher light amplification has been achieved by a new high-voltage power supply using digital technology. Plus, adjustments have been added for light amplification, infrared intensity, and lit-reticle brightness.

Total darkness IR.....Standard
 Magnification.....4x
 Lens system..... F1:1.7, F90mm
 FOV.....12°
 Diopter adjustment.....±5
 Power supply..... one 3 volt
 Range of focus..... 0.9m to infinity
 Controls..... Digital
 Battery life.....10-20 hours
 Dimensions.....200mm X 85mm X100mm /
 8" X 3" X 4"
 Weight.....1kg / 2.2lbs
