- Assembled in the U.S.A.

The MK6500D is an inexpensive, compact 2nd gen. weapon sight designed with the cash conscious consumer in mind. The MK6500D utilizes a D-grade light intensifier tube to achieve its low price. D-grade tubes are tubes that did not pass our tube certification test typically do to too many cosmetic imperfections on the tube. These imperfections are normally seen as black spots in the viewing area. These blemishes do not affect the light gain, or lifespan of the tube. Our D rated tubes are backed by a 1 year limited warranty. Equipped with a built-in infra-red illuminator for total darkness viewing and the full array of "Smart Features" the MK6500D is one of the least expensive 2nd generation night vision weapon sights on the market.
