## Night-vision riflescopes offer two-color manual brightness

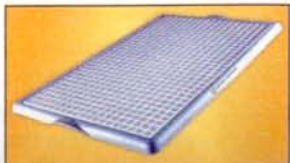

MARS series of night-vision riflescopes feature two-color manual brightness of aiming reticle. Allows choice of red or amber color of the projected reticle depending upon operator preference and the lighting situation. Models 4X-3P and 6X-3P perform in high-light or light-polluted areas, while minimizing halo effects. Milled from solid-quality aluminum billet and fitted with titanium inserts. Sights are nitrogen-purged for internal fogging resistance. Features low-battery indicator, digital remote control and daytime cover.

## Spill tray enables safe handling of chemicals, liquids

Workstation spill tray and drying rack eliminates spills with chemical-resistant, maintenance-free, polyethylene containment tray. Unit enables safe handling of chemicals and liquids while pipetting, measuring or mixing. Holds 1 1/4 L of spilled liquid. To clean, simply lift off the white grid and empty. Low-profile design. Plastic grid cushions and

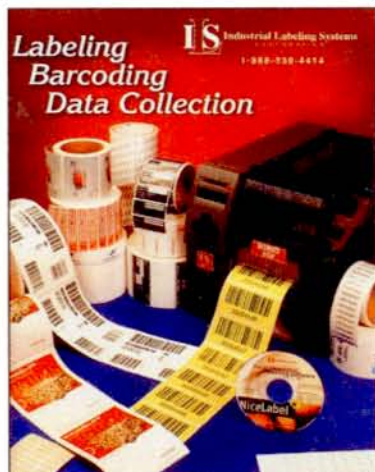

## Swivel casters offer three levels of lock protection

SingleTech Combi total-lock swivel casters are available in 12 single-wheel models. Available with fully enclosed, positive mechanical brake and locking system for locking all casters in a combination set simultaneously. Constructed of lightweight, pressure-diecast aluminum shells. Central locking system offers three positions: free-swiveling; swivel locked with wheel free; and total locking. Locking does not wear on brake pads or tire surfaces. Load capacities range from 198 to 330 lbs.
