ATN PS14-3N

MULTI-USE NIGHT VISION MONOCULAR

PS14-3N is a 3 Gen multi-use night vision monocular. This unit can be handheld, head-mounted for hands free usage; it is camera/camcorder adaptable and can be transformed to a 4x or 6x binocular.

If versatility is what you are looking for among night vision devices then the PS14-3N is a system for you. The PS14-3N system allows you to customize the design of your unit. By ordering different packages you can build a system that fits your specific night vision demands. A built in IR illuminator allows you to see clearly even in total darkness. Having all-glass optics multi-coated specially to transfer more light PS14-3N is an excellent compact night vision monocular for all your night vision needs.
