

NIGHT VISION WEAPON SIGHT

MK 300

This is the Scope! 1st generation does not get any better than the MK300. We set out to design the best 1st Gen. scope on the market and we succeeded.

We started by improving the optical configurations which lowered the F-stop factor and increased optical resolution. By doing this, more light travels through the lens to the tube. More light and better resolution simply means brighter and sharper image. Then we added our precision "red on green" aiming system, easy push button operation, reticle brightness adjustment and our new detachable, most powerful in the industry 450mw Infrared Illuminator with dedicated windage and elevation adjustments. Our MK300 is the best 1st. generation scope on the market.

- Powerful multi-coated all-glass optics
- High resolution Gen 1+ Image Intensifier tube
- Easy-to-see "Red on green" reticle system
- Reticle brightness adjustment
- Detachable Long Range infrared illuminator
- Water and fog resistant
- Limited Two-Year Warranty
