Versatility is the name of the game. Our 3-9x55LU can be used for long, medium, or short range shooting. Superior optics and a large 55mm objective lens provide you with one of the brightest scopes made. The inter-changeable cams for the BDC lets you go after Big game with rifles using .300 Magnum or 7mm Magnums cartridges, as well as varmint rifles with .223 or .270 caliber's, while the .223, .30-06 or the venerable .308 can be relied upon in the tactical environment.
