

NIGHT VISION GOGGLES

PS-15-4

The PS-15 is a compact, lightweight dual night vision goggle system. It utilizes two high performance image intensifier tubes to provide extremely clear and crisp images under the darkest conditions. This dual tube design provides increased depth perception and outstanding clarity. A built-in IR lets the user easily read a map and function in a total darkness environment. Available in a wide array of image intensifier tube configurations the PS-15 is designed to handle every budget and mission requirement. The PS-15 is the high performance choice!
